

# Pyramid Resources for Infant-Toddler Social- Emotional Development

## Tier 2 and 3: Planning & Implementing Targeted Supports

These materials were supported by the Institute of Education Sciences, U.S. Department of Education, through Grant R324A170118 to University of Kansas. The opinions expressed are those of the authors and do not represent views of the Institute or the U.S. Department of Education. You may reproduce these materials for training and information purposes.

1

## Learner Objectives

- **Understand challenging behavior**
- **Learn about the process of identifying the need for Tier 2 supports**
  - Conduct universal screening to identify children who would benefit from Tier 2 supports
  - Set goals and develop a plan for implementing targeted supports
  - Conduct progress monitoring and use Data-Based Decision Making
- **Introduce options for Tier 3 level support**

2

## Agenda

### Setting the Stage

#### Overview for Today's Training

- Understanding Challenging Behavior
- Universal Screening
- Setting Social-Emotional Goals
- Providing Tier 2 Supports
- Progress Monitoring and Data-Based Decision Making Model

### Wrap Up & Reflection

3

## Our Learning Environment

**What makes a positive learning experience and environment for you?**

**What can the trainer do to facilitate a safe learning environment?**

**What are some agreements we can make together?**

4

## Possible Shared Agreements

### Confidentiality

**Take Care of Yourself and Others**

**Demonstrate Respect for all**

**Right to Pass**

**Right to Take Risks**

**Assume Positive Intent**

**Recognize We Are All Learning**

5

## CSEFEL Definition of Social/Emotional Development

**The developing capacity of the child from birth through five...**

- to form close and secure relationships;
- experience, regulate, and express emotions in socially and culturally appropriate ways; and
- explore the environment and learn;
- all in the context of family, community, and culture.

6

The Pyramid Model:  
Promoting Social-Emotional  
Competence & Addressing Challenging Behavior

7

## Challenging Behavior

**What is Challenging Behavior for Infants and Toddlers?**

8

## What is Challenging Behavior?

Any behavior that interferes with learning or engagement in prosocial interactions with peers and adults

9

## Consequence of not addressing the problem

### Behavior may become:

- Habitual
- More Frequent
- More difficult to change

### Behavior may impact:

- Quality of care giving
- Delayed social development
- Peer relationships

10

## Prolonged Challenging Behavior

- High rates of suspension and expulsion with disparity based on race, gender, and disability status
- Young boys of color have highest rates of expulsion and suspensions
- Young children with disabilities are twice as likely to receive an out-of-school suspension

**\*\*Later school success depends on learned emotional and behavioral skills before entering kindergarten.**

11

## Reasons for Challenging Behavior

- Lack of skill in communicating & interacting with others
- Developmental surge
- Medical/health reasons
- Social emotional environment
- Discontinuity between care program & home
- A combination of more than one above

12

Expression of Emotion

**Intensity**

**Frequency**

**Duration**

istockphoto.com/Rebecca\_Ellis

13

## Group Discussion: Welcoming Families

**What are some strategies you have used with families to ensure an equal partnership when focusing on their child's needs?**

**What do you think should be some dos and don'ts when communicating with families about their child's challenging behavior?**

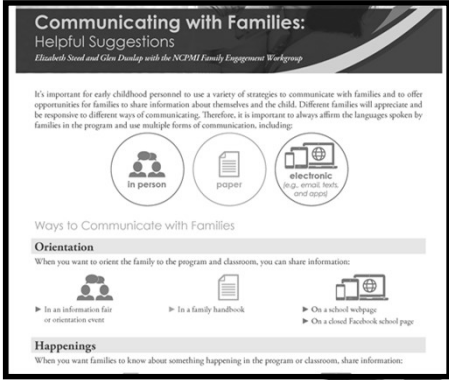

14

## Communicating with Families

**Handout 4**

**ChallengingBehavior.org**

15

## Family Conversations

- **How has your child been doing at home lately?**
- **I wonder if your child is experiencing any challenges at home recently?**
- **Is this behavior new or has your child been acting this way for some time?**
- **How do you respond at home when that happens?**
- **Have there been any changes at home that might help us understand how your child is feeling?**
- **Are you seeing these behaviors just at home, or with others as well?**

16

## Welcoming Families

17

## Providing Tier 2 Supports

Using Universal Screening, Progress Monitoring, & Data-Based Decision Making

18

## Overview of Tier 2 of the Pyramid Model

19

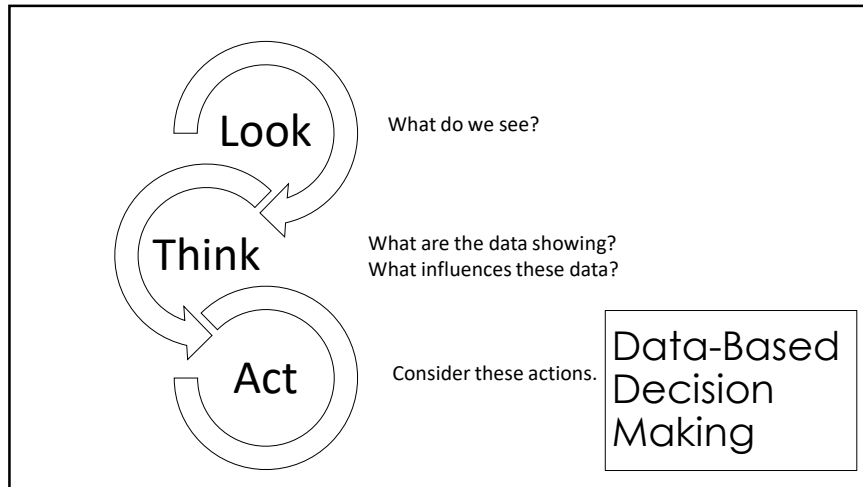

## Data-Based Decision Making

Ongoing process of gathering, analyzing, and evaluating information to guide decisions or actions

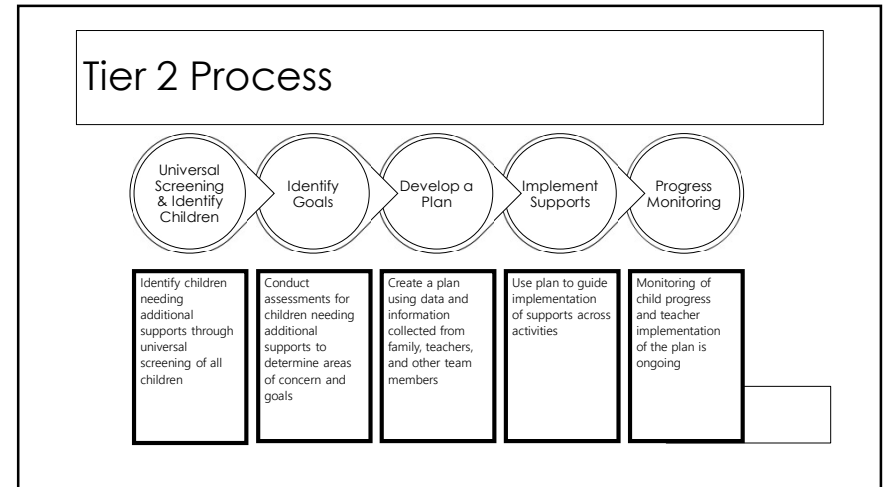

Key components:

1. Data collection is ongoing
2. System for analyzing and evaluating information
3. Data help guide decisions or actions

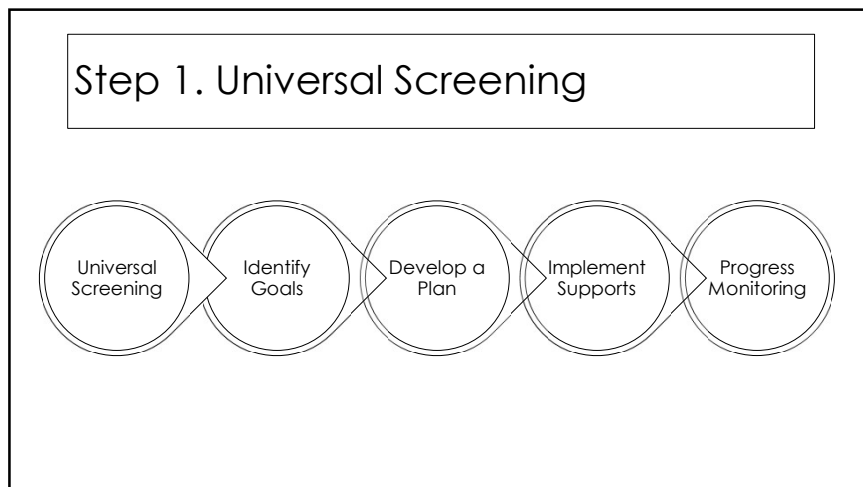

20

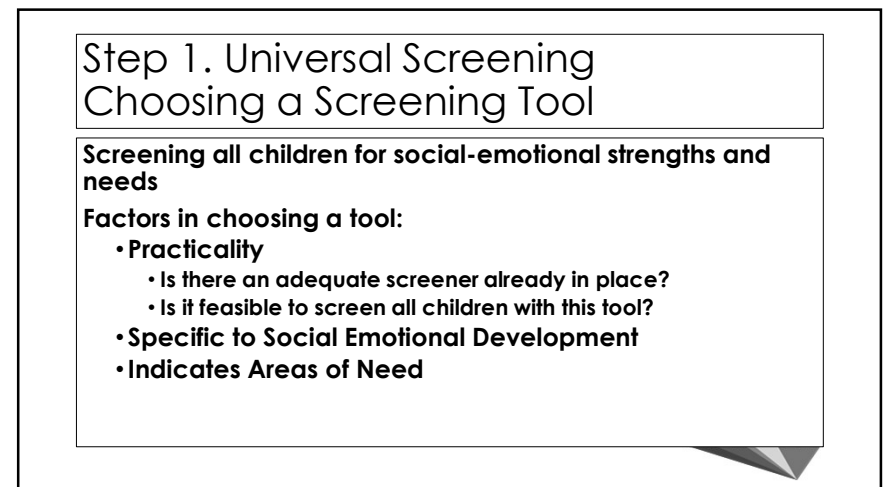

21

22

23

24

## Step 1. Universal Screening What is the DECA?

**All Infants & Toddlers:  
Attachment  
Initiative**

**Toddlers Only:  
Self Regulation**

25

## Essential Screening Questions

26

## Step 1. Universal Screening Essential Screening Questions (ESQ)

Does this child require additional attention to participate or stay engaged in regular classroom routines?

Does this child exhibit internalizing (withdrawing) behaviors beyond what is typical for his or her age?

Does this child exhibit externalizing (acting outward) behaviors beyond what is typical for his or her age?

Has the child/family recently experienced a change or event that could be affecting the child's social emotional development?

27

## Step 1. Universal Screening Determining Need for Tier 2 Supports

If the child has an “*area of need*” score in any DECA category, or if the teacher answers “Yes” to any of the Essential Screening Questions, the teacher should consider providing Tier 2 supports

If the child has a “*approaching area of need*” score in any DECA category, the teacher may wish to use Essential Screening Questions to decide whether the child needs Tier 2 supports

If a child has *no areas of concern* on the DECA and does not receive a “yes” response to any of the questions on the Essential Screening Questions, it is unlikely the child would need Tier 2 supports

Look:  
Is there a  
problem?

28

### Step 1. Universal Screening Classroom Case Study

**"Area of Need" on DECA?**

**"Yes" to any Essential Screening Question?**

**"Approaching Area of Need" on DECA?**

Child	DECA										Essential Screening Questions	
	Attachment Relationships	Innovative	Social Regulation	Total Protective Factors	ESQ 1: Resilient children's orientation?	ESQ 2: Externalizing behaviors?	ESQ 3: Internalizing behaviors?	ESQ 4: Changes affecting 3rd needs?	Total Area of Need	Total Approaching Need		
Aaron	X	X	X	X	X	X	X	X	5			
Nuri	/	/		X		X	X	X	3	2		
Marcus												
Simon	/								1			
Grace	/								1			

**"X" = Area of Need**  
**"/" = Approaching Area of Need**

**Look: Is there a problem?**

29

### Step 2. Identify Goals

30

### Step 2. Identifying Social-Emotional Goals

**To support the identification of social emotional goals for children use the SEAM – the Social-Emotional Assessment Evaluation Measure.**

31

### Step 2. Identifying Social-Emotional Goals

### Strengths and Concerns Summary Form

32

## Step 2. Identifying Social-Emotional Goals Case Study

### Aaron's Strengths & Concerns Summary

Strengths and Concerns Summary Form  
 Thinking: What should be done?  
 Date: 11/2/20

Child: Aaron Teacher: Ms. Terry Coach: ABM

Some of the child's strengths related to social-emotional development are:

- Can break with adaptive skills
- Likes to explore
- Smiles a lot

Some areas of concern for the child's social-emotional development:

- Has a hard time calming
- Not interested in engaging with others
- Doesn't call attention to self
- Doesn't participate in simple games

Some potential goals to target with the child:

- Engage in activities with others
- Able to caregiver to get attention
- Has a way to calm when excited

33

## Step 3. Developing a Plan

34

## Step 3. Developing a Plan

Think:  
What should  
be done?

What to teach

When to teach

How to teach

Adapted from Embedded Instruction for Early Learning Project, (2015). Tools for Teachers Modules 1-4 [Workbook and Practice Guide]. Unpublished professional development series. College of Education, University of Florida, Gainesville, FL.

35

## Step 3. Developing a Plan: What to Teach

Think:  
What should  
be done?

### Is what you want to teach meaningful?

- A goal that is identified based on the SEAM as an area of concern and will help the child become more engaged and more independent in social interactions and/or in engagement throughout the day.

### Is what you want to teach observable?

- A specific behavior you can see

### Is what you want to teach measurable?

- A specific behavior you can count

36

## Step 3. Developing a Plan: When to Teach

Think:  
What should  
be done?

### Child Directed

Initiated or  
guided by  
the child

Capitalize  
on child's  
motivation  
& interests

### Routine

Regular occurrences  
of  
necessary  
events

Provide  
multiple  
practice  
opportunities across  
activities

### Planned

Occur with  
adult  
guidance

Create  
multiple &  
varied  
opportunities for  
practice

37

## Step 3. Developing a Plan: How to Teach

Think:  
What should  
be done?

### Strategies

- Verbal prompting
- Visual prompting
- Modeling
- Hand-over-hand
- Physical guidance
- Gesturing/sign language

### Materials/Activities

- Signing songs
- Reading books
- Using puppets
- Pictures

38

## Step 3. Developing a Plan:

Think:  
What should  
be done?

Targeted Support Plan and Tracking

41

Step 3.  
Developing a Plan  
Activity:  
Plan Writing for Michael

42

Step 3.  
Developing a Plan  
Activity:  
Plan Writing for Michael

43

Step 4. Implementing the Plan

44

#### Step 4. Implementing the Plan

**Teachers implement target strategies with children within the context of play, routines and daily activities.**

45

#### Step 5. Progress Monitoring

46

#### Step 5. Progress Monitoring Tier 2 Measures

##### Teacher implementation measure

- Are strategies being implemented as planned?
- Are there multiple opportunities to practice?
- Are more needed?

##### Child Outcome measure

- Early Social Indicator – standardized measure of child social-emotional behaviors
- Targeted Support Plan - teachers & coach report on child progress

47

#### Step 5. Progress Monitoring

##### Targeted Support Plan and Tracking:

##### Teacher Implementation

48

## Step 5. Progress Monitoring

### Targeted Support Plan:

### Child Monitoring

Date:	11/1	11/2	11/3	11/4	11/5	11/6	11/7	11/8	11/9	11/10
Strategy used:	1	1	1	1	1	1	1	1	1	1
Child showed desired response:	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Strategy used:	2	2	2	2	2	2	2	2	2	2
Child showed desired response:	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Strategy used:	3	3	3	3	3	3	3	3	3	3
Child showed desired response:	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes

49

## Step 5. Progress Monitoring Early Social Indicator

- Measure of child social-emotional behaviors
- Conducted by your coach and data shared with you
- Play-based assessment of child social skills
- Direct observation with familiar play partner (peer and/or adult)
- Helps you understand if child is progressing compared to peers their own age

50

## Step 5. Progress Monitoring Is it working? Case study

51

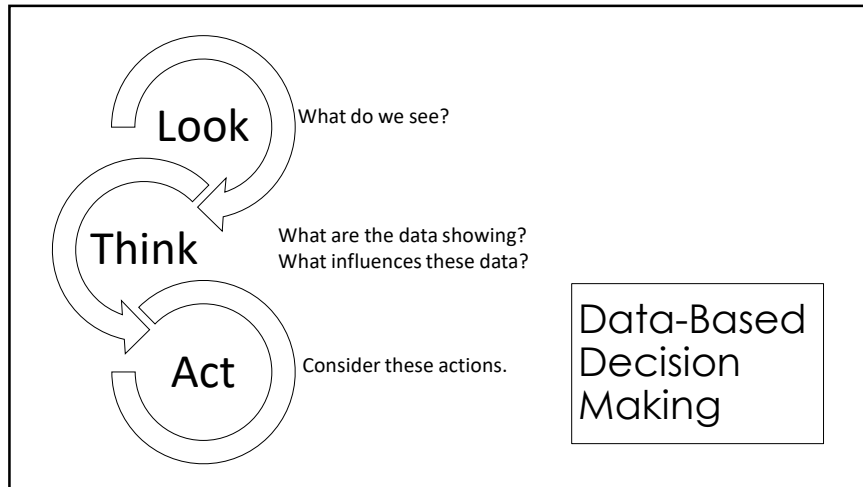

## Progress Monitoring Example

Targeted Support Plan and Tracking											
Child ID(s): 111 (Aaron)		WHAT to Teach (Goal): Engage in classroom activities						Form completed by: Teacher / Coach: J. _____			
Date:		Review Date:									
WHEN to Teach:	HOW to Teach:	What we want the child to do:									
Free play Outdoors Care Routines Structured	1 Strategy: Position to play alongside or with peer with two of same toy.	Child will stay in the same area with peer and toy for 5 minutes.									
Free play Outdoors Care Routines Structured	2 Strategy: use modeling and/or hand-over-hand to assist with participation in songs and rhymes with hand gestures	Child will participate by independently singing or gesturing to one song.									
Free play Outdoors Care Routines Structured	3 Strategy: Place small amount of food on plate to increase interactions and encourage requesting "more"	Child will communicate or request to an adult 3 times during lunch.									
Date:	11/1	11/2	11/3	11/4	11/5	11/6	11/7	11/8	11/9	11/10	11/11

53

54

55

56

## Overview of Tier 3

57

## EARLY INTERVENTION SERVICES

- **PART C of IDEA**
- **Available in every state**
- **Free or reduced fees**

58

## How does a child receive early intervention services?

- **Family member, physician, or childcare professionals can refer a child for assessment**
- **Reach out to the Parent Center in your state**  
<https://www.parentcenterhub.org/find-your-center/>
- **Ask child's pediatrician for referral information**
- **Contact the Part C coordinator in your state**  
<https://ectacenter.org/contact/ptccoord.asp>

59

## Primary Characteristics of a Program Process

**Reflective, rather than reactive**

**Focus is on assisting child in getting needs met rather than eliminating the challenging behavior**

**Goal is to help the child with developmentally appropriate skills**

60

## Your coach may ask you...

- to describe what behaviors you are seeing
- to describe frequency and intensity of behaviors
- about possible related factors (e.g., sleep, medications)
- what sorts of things predict or trigger behaviors
- what you think encourages behaviors to continue
- how the child currently communicates
- what you have already tried to address concerns
- to identify possible reinforcers for the child

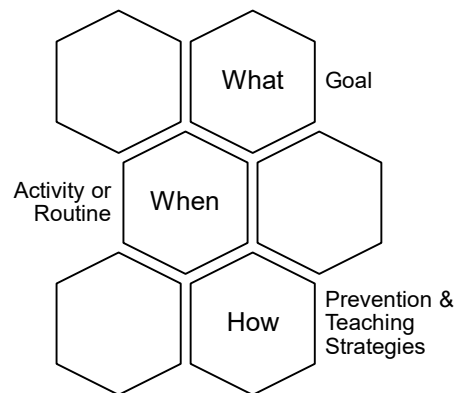

61

## Teaming to Develop a Behavior Support Plan

**Multiple informants to reflect on child behavior and the data collected**  
**Multiple sources of support for creating and implementing the plan**

62

## Elements of a Behavior Support Plan

63

## Continue with Teacher Action Plan

**Teacher and coaches will continue with an action plan to discuss on a regular basis.**

**Teacher Action Planning Form**  
 Directions: Use the Coach and Teacher Planning Forms to create an action plan.

Teacher:	Coach:	Date:		
Goal	Action Steps	Materials or Resources Needed	Timeline	My goal is met when...

### Other Information

## Talking with Families about Challenging Behaviors: Do's and Don'ts

Do individualize your approach when communicating with families.

Do share the strengths of the child with the family.

Do explain to the family that you want to work with them to help their child develop appropriate behavior and social skills.

Do let the family know you are feeling concerned and want to do all you can to help their child feel safe, happy, and successful in your setting.

Do tell the family about what has been observed in the classroom and has led to the conversation.

Do ask the family if they have experienced similar situations and are concerned.

Do offer to work with the family in the development of a behavior support plan that can be used at home **AND** in the classroom.

Do emphasize that your focus will be to help the child develop the skills needed to be successful in the classroom **AND** at home. There is a need for teaching and supporting.

Do stress that if you can work together, you are more likely to be successful in helping the child learn new skills. You value their contribution because they know their child best and can give clear ideas about what works for their child.

Do not assume all families communicate the same way.

Do not initiate the conversation by listing the child's challenging behavior.

Do not begin the discussion by indicating that the child's behavior is not tolerable.

Do not indicate that the child must be punished or "dealt with" by the family.

Do not ask the family if something has happened at home to cause the behavior.

Do not indicate that the parent should take action to resolve the problem at home.

Do not develop a plan without inviting family participation.

Do not let the parent believe that the child needs more discipline.

Do not minimize the importance of positive behavior support and helping the family understand the value of working together on the child's skill development.

# Communicating with Families: Helpful Suggestions

*Elizabeth Steed and Glen Dunlap with the NCPMI Family Engagement Workgroup*

It's important for early childhood personnel to use a variety of strategies to communicate with families and to offer opportunities for families to share information about themselves and the child. Different families will appreciate and be responsive to different ways of communicating. Therefore, it is important to always affirm the languages spoken by families in the program and use multiple forms of communication, including:

## Ways to Communicate with Families

### Orientation

When you want to orient the family to the program and classroom, you can share information:

- ▶ In an information fair or orientation event

- ▶ In a family handbook

- ▶ On a school webpage
- ▶ On a closed Facebook school page

### Happenings

When you want families to know about something happening in the program or classroom, share information:

- ▶ On a board with daily/weekly reminders at program entrance or outside classroom
- ▶ On a family bulletin board
- ▶ In newsletters

- ▶ In weekly emails in electronic newsletter form
- ▶ Through an app like REMIND
- ▶ On a closed Facebook school page
- ▶ Group text messages

## Progress Reports

When you want to share information with families about the child's day, use:

- ▶ Informal, regular face-to-face conversations

- ▶ Emails, texting, and phone calls
- ▶ Web-based home-school communication like Storypark, Preschool2Me, Brightwheel, HiMama, Learning Genie, ClassDojo, KidReports, MyProcare, Bloomz, or Seesaw
- ▶ Photo sharing through a program like Kaymbu or Tadpoles

- ▶ Daily notes or a communication notebook

## Developmental Supports

When you want to share information to support children's development, do it through:

- ▶ Child-focused meetings such as parent-teacher conferences or IEP meetings
- ▶ Family events during mornings, evenings, or weekends (e.g., open house, family workshops, family breakfast at drop off, family festivals, fundraisers)
- ▶ In-person communication with specialists, such as an Early Childhood Mental Health Consultant, speech pathologist, or occupational therapist

- ▶ Provision of print or material resources (e.g., NCPMI resources) about social emotional development or a developmental issue (e.g., tantrums)

- ▶ Links to electronic resources (e.g., Backpack Series)
- ▶ Online portfolios; like Storypark, Preschool2Me, Brightwheel, HiMama, Learning Genie, ClassDojo, KidReports, MyProcare, Bloomz, or Seesaw

## Ways to Invite Families to Share

Building a relationship is foundational to engaging families. Different families will prefer different strategies for sharing information about their child, themselves, and what they see as important. You'll need to provide choices and be responsive to parents' preferences.

## Enrollment

When you want to learn about the family, child, and what is most important to them at intake, use:

- ▶ Home visits
- ▶ Program orientation
- ▶ Open house

- ▶ Screenings (e.g., ASQ:SE2) and assessments (e.g., SEAM, DECA)
- ▶ Questionnaires and forms (e.g., new student/family questionnaire, enrollment forms)
- ▶ All About Me form or poster with pictures of the child and family

## Relationship

When you want to learn about the child and family and build a relationship over time, do it through:

- ▶ Informal face-to-face conversations at drop off and pick up
- ▶ Family events during evenings or weekends (e.g., family workshops)
- ▶ Child-focused meetings such as parent-teacher conferences or IEP meetings
- ▶ Collaboration with the Mental Health Consultant, behavior specialist, cultural liaison, and/or other professionals who work with the child and family

- ▶ Communication notebooks

- ▶ Emails, texting, and phone calls
- ▶ Communication app like REMIND
- ▶ Web-based home-school communication/portfolios like Storypark and Seesaw

## Input

When you want to have formal ways for families to provide input and support to the program, partner with them by inviting parents/caregivers to:

- ▶ Volunteer in the classroom
- ▶ Volunteer to help organize/carry out a school event or fundraiser
- ▶ Participate as a member of the family board
- ▶ Be a room parent/caregiver
- ▶ Serve on the Pyramid leadership team
- ▶ Get involved with the board of directors
- ▶ Make things for the classroom or program
- ▶ Help fix, clean, paint, and/or organize things during a workday at the school

## Steps for Planning & Implementing Tier 2 Targeted Supports

# Devereux Early Childhood Assessment (DECA) Overview

## What is the DECA?

The DECA is a 1-page early childhood assessment that provides information about a child's social-emotional strengths and needs.

## What scores does the DECA provide?

For infants and toddlers, the DECA provides scores for: 1) **Attachment**, or the mutual, strong, long lasting relationship between the child and significant adults; 2) **Initiative**, or the child's ability to use independent thought and actions to meet her or his needs; and 3) a **Total Protective Factors** scale, which provides an overall indication of the strength of a child's protective factors. For toddlers only, the DECA also provides a score for **Self-Regulation**, or the child's ability to gain control of and manage emotions, and sustain focus and attention.

## What do DECA Questions look like?

When filling out the DECA, you will answer how often a child exhibited a specific behavior in the past four weeks. You will rate the child on a 5-point scale, ranging from Never to Very Frequently.

### Sample Questions:

During the past 4 weeks, how often did the toddler...  
try to do new things?  
enjoy interacting with others?  
easily follow a daily routine?

This form describes a number of behaviors seen in some toddlers. Read the statements that follow the phrase: *During the past 4 weeks, how often did the toddler ...* and place a check mark in the box underneath the word that tells how often you saw the behavior. Answer each question carefully. There are no right or wrong answers. Please answer every item. If you wish to change your answer, put an X through it and fill in your new choice as shown to the right.

Item #	During the past 4 weeks, how often did the toddler ...	Never	Rarely	Occasionally	Frequently	Very Frequently
1	enjoy interacting with others?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2	show affection for a familiar adult?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3	adjust to changes in routine?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4	seek comfort from familiar adults?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5	makes needs known to a familiar adult?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6	act happy with familiar adults?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7	show interest in her/his surroundings?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
8	respond when spoken to?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9	show concern for other children?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
10	try to comfort others?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
11	act happy when praised?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

## How do I score the DECA?

When finished filling out the DECA, pull off the perforated section of the form and gently separate the pages of the form. You will find instructions for scoring the DECA on the back page of the form. Video instructions are available at [https://youtu.be/L97e8ZO\\_788](https://youtu.be/L97e8ZO_788).

## Is there anything else I should know before filling out a DECA?

You should know a child for at least 4 weeks before completing a DECA on the child.

There are two DECA forms, a Yellow Infant Form for ages 0-17 months; and a Green Toddler Form for ages 18-36 months.

Use behaviors observed over the most recent 4-week period to answer the questions.

Do not consult with other adults in the classroom when filling out the DECA.

Do not compare children to each other when filling out the DECA.

## Essential Screening Questions

Directions: Please answer the following questions for each child in your classroom by checking "yes" where applicable and noting any specific concerns or needs.

**Classroom:**

**Date:**

Child	Q1. Does this child require additional attention (more than other children) to participate or stay engaged in regular classroom routines?	Q2. Does this child exhibit externalizing behaviors (negative behaviors directed outward) beyond what is age-typical?	Q3. Does this child exhibit internalizing behaviors (inward behaviors affecting primarily the child) beyond what is age-typical?	Q4. Has the child/family recently experienced a change or event that could be affecting the child's social emotional development?
	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes
	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes
	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes
	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes
	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes
	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes
	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes
	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes
	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes
	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes

# Classroom Universal Screening Summary

Directions: Indicate an area of need on the DECA by writing an "X" in the corresponding box. Indicate approaching area of need by writing a "/" in the corresponding box. For ESQ, "X" if "yes." If no concerns, leave blank.

## DECA

## Essential Screening Questions

**Class:**

**Date:**

"X" = Area of Need

"/" = Approaching Area of Need

Child

	Attachment Relationships				Self Regulation				Total Protective Factors				ESQ 1: Require additional attention?				ESQ 2: Externalizing behaviors?				ESQ 3: Internalizing Behaviors?				ESQ 4: Changes affecting SE needs?				Total Areas of Need		Total Approaching Need	

If the child has an "area of need" score in any DECA category, or if the teacher answers "Yes" to any of the Essential Screening Questions, the teacher should consider providing Tier 2 supports

If the child has an "approaching area of need" score in any DECA category, the teacher may wish to use Essential Screening Questions to decide whether the child needs Tier 2 supports

If a child has no areas of concern on the DECA and does not receive a "yes" response to any of the questions on the Essential Screening Questions, it is unlikely the child would need Tier 2 supports

## Child Strengths & Concerns

Directions: Use the SEAM and/or other data to identify strengths, areas of concern, and potential goals to target with the child.

**Think:**  
Why is it  
happening?

## PART C EARLY INTERVENTION RESOURCES

Health care providers, including pediatricians, parents, social service workers, and YOU are just some of the people who can refer an infant or toddler for early intervention. Families do not have to wait for a referral from a pediatrician. YOU can assist families to find your community's early intervention office with the following resources:

- Call the state department of health or education
- Reach out to the Parent Training and Information Center in your state :
  - <https://www.parentcenterhub.org/find-your-center/>
- Ask the pediatrician for a referral
- Visit the Early Childhood Technical Assistance Center's state-by-state contacts page:
  - <https://ectacenter.org/contact/ptccoord.asp>
- Visit the CDC's U.S. State, Commonwealth & Territory Early Intervention Contacts list:
  - <https://www.cdc.gov/ncbddd/actearly/parents/state-text.html>

When a call is made, explain that there are concerns for the child's development and request information on the evaluation process. Request for an evaluation is covered under Part C federal law and is typically free to families.
